**ANTICORROSIVE TRIPLE WARRANTY**

**WARRANTY**

All PROS by Ditel modular system products and their components have a 3 years guarantee against manufacturing defect or failure operation. This guarantee will not have effect in case of misuse, misapplication or wrong connection. The guarantee scope is limited to the product repair or replacement. Manufacturer decline all responsibility for incidents or damages generated for product malfunctioning.

# CIRCUIT BREAKERS AND INSTRUMENTATION PANELS

The circuit breaker panels include serigraphied mounting panel, screws, common bus bar, LEDs or Neon and packaging. The circuit breakers are sold separately, according to current rating.

## MODULAR SYSTEM

PROS by Ditel control and switchboard panels are based on a modular system. By choosing among several sizes and their combinations, you will get a control and switchboard panel that will adjust to present needs and fit the available space in the boat. This modular system also allows later additions.
